

## A FEW 2015 HIGHLIGHTS FROM DON & CYNDIE JETER

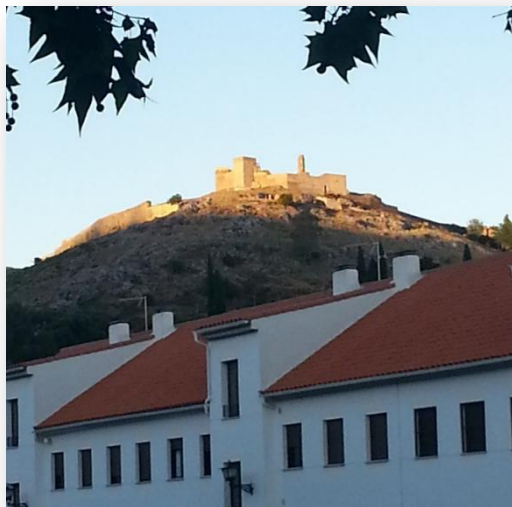

**Anna Sofía Gómez**, our 10th grandchild, was born in Sevilla, Spain in March 2015, to AGWM missionaries Ruthie & Brian Gómez. **Abuela” Cyndie** flew to Spain to be with our daughter Ruthie one week before she gave birth to her adorable baby girl. She was able to help with the grandchildren (Sara & Daniel), cooking, sewing, and general helping Ruthie & Brian with the newborn and facilitating their ministry.

**Don** flew to Spain and ministered at our

Assemblies of God seminary in La Carlota, Córdoba, where he remains a faculty member. While there he was able to witness the extensive remodeling and new construction which considerably enhances the facilities with a new library, classrooms, elevator, parking, etc.

**Both Don & Cyndie** ministered at the A/G Christian Center in Sevilla on a number of occasions where Brian & Ruthie serve. **Don** also had the distinct pleasure of dedicating Anna Sofía.

### **Don & Cyndie visited and preached in Arcena, Huelva (Spain).**

The mother church in Sevilla recently dedicated a new A/G church there, the 1<sup>st</sup> non-Catholic church in the history of the town. Even the mayor attended the

dedication. Kingdom growing is a process in which many faithful take part (1 Cor. 3:6-8).

**Forty years ago, as ICI director in Spain,** Don visited ICI students in Arcena who had taken the evangelistic courses and were taking what is now the Christian Life courses

of Global University, getting to know them & encouraging them in their faith in an effort to form home study groups across the provinces of Huelva and Sevilla as well in the rest of Spain.

In Spain and the rest of Europe, church growth is a slow, deliberate process. There are no instant signs of results so eagerly sought after in our “success-driven” U.S. market. What we do have is an unwavering trust in the Lord of the Harvest who promised “I will build my church” (Mat.16:18) and the Word of God which does not “return unto Him void” (Isa.55:11).

**Cyndie really enjoys her ministry at the International Offices of Global University.**

As *Spanish Testing Coordinator* she fulfills a very important role in guaranteeing the accuracy of the testing materials in the Spanish language for the undergraduate program in order to insure maximum quality in the education of our Spanish-speaking ministerial students around the world.

Cyndie's ministry reaches far beyond, corresponding with GU students, among others those who are prisoners, praying and counseling and many other ministry opportunities within and outside of the building's walls in person and on-line.

**Global University in Cuba:** There are presently over 3,000 ministers in Cuba studying with Global's B.A. degree program as well as those pursuing their Master's degree. This is in addition to those studying with the Facultad and ISUM programs which have been effectively serving in Cuba for a number of years with which Don also taught.

**Thank you for your prayers and financial support of our missionary ministry.**
